***Resolution 2019-53: Stating Opposition To Governor Cuomo’s Budget Eliminating Aid And Incentives To Municipalities (AIM) Funding To Local Governments**

WHEREAS, New York State has funded cities, towns and villages since the mid-1970’s with unrestricted State aid, and since 2005 the State has funded “Aid and Incentives to Municipalities” (AIM), and
WHEREAS, AIM has assisted cities, towns and villages in offsetting the regressive property tax in these municipalities by using more progressive revenues such as income taxes, and
WHEREAS, for decades New York State legislature has annually overridden the revenue sharing formulas established in permanent statute (https://www.osc.state.ny.us/localgov/pubs/research/rev_sharing.pdf), therefore disregarding their own fiscal responsibilities to local governments, and
Whereas even before Governor Cuomo’s proposed cuts, AIM funding has been level, not accounting for any inflation since the state’s peak funding in 1988-89, and
WHEREAS, in the Governor’s proposed 2019-2020 budget, all AIM funding has been eliminated for towns and villages unless such aid is more that 2% of their 2017 expenditures, and
WHEREAS, the proposed budget would eliminate AIM to all of the towns and villages in Tompkins County, and
WHEREAS, the proposal would eliminate \$33,545 in AIM funding to the Town of Ulysses effective April 1, 2019 from the Town’s 2019 budget, funds that the town is relying on as a source of revenue for the 2019 calendar year, and
WHEREAS, a mid-year loss of revenue will require reductions in service or transfers from the Town’s reserve accounts to maintain important local services, and
WHEREAS, these AIM cuts will in all likelihood require INCREASES IN LOCAL PROPERTY TAXES using a supermajority vote to override the State property tax cap.

Now therefore be it

RESOLVED, that the Town of Ulysses joins the Tompkins County Council of Governments in vehemently opposing the elimination of AIM to the towns and villages of Tompkins County, as well as other towns and villages in New York State, and further

RESOLVED, that certified copies of this resolution be delivered to the Governor’s Office, representatives Senator Thomas O’Mara and Assemblyperson Barbara Lifton, Senate Majority Leader Andrea Stewart-Cousins, and Assembly Leader Carl Heastie, to make them fully aware of our opposition to AIM being eliminated for most of the State’s towns and villages.

Discussion: Mr. Hertzler asked who would receive this resolution? Ms. Zahler responded that this would be sent to legislators who will vote on the State budget. Mr. Hertzler is concerned that they may not understand our concern because of the length of the resolution. Ms. Zahler explained it was based on the resolution passed by the Tompkins County Council of Governments and that our state representatives were already very familiar with the proposal and aware of municipal opposition and that the title succinctly states the issue so that staff will be able to brief the legislators on the issue and our position.

WHEREAS the Town Board of the Town of Ulysses supports the right of each resident to clean air and water; and

WHEREAS, in the United States there are many states/commonwealths with Constitutions that contain some form of “environmental rights” or expression of environmental values; and

WHEREAS, it is the constitutional duty of all levels of government within New York State to protect the health, safety and welfare of their residents giving residents a right to live and work in a clean environment; and

WHEREAS communities in NYS like Hoosick Falls, Long Island and Newburgh, along with many other communities throughout the United States like Flint, Michigan and Toledo, Ohio have suffered contaminated water systems caused by lack of intervention and/or protection by either government and/or private interests; and

WHEREAS, in watersheds throughout the Finger Lakes, municipalities and individuals draw drinking water that has in recent years been affected by Harmful Algal Blooms making treatment more expensive for municipal water supplies, and sometimes impossible for individual households that draw water directly from the lake; and

WHEREAS, there is at present a uniform bill before both the New York State Assembly (A. 2064 [Englebright, Gottfried, et al.]) and the New York State Senate (S. 2072 [Carlucci et al.]) to add the following language to the New York State Constitution that will formally establish in the New York State Constitution a right to clean water, clean air, and a healthful environment:

Resolved, that article 1 of the constitution be amended by adding a new section 19 to read as follows: “§ 19. Environmental rights. Each person shall have a right to clean air and water, and a healthful environment”; WHEREAS, formally establishing such a civil environmental right will help drive better government decision-making at all levels, helping prevent conditions in which land, water and air become contaminated; and WHEREAS establishing such a right will also affect individuals and private enterprise and promote better decision-making based on the New York Constitution’s acknowledgement that all residents have environmental rights; and

WHEREAS, passing these bills will address a gap in the state’s legal foundations and provide an expression of values that other states have already seen fit to establish,

WHEREAS, the Conservation and Sustainability Advisory Council has reviewed and unanimously endorsed this legislation,

WHEREAS, Durand Van Doren has contributed to the Village of Trumansburg and the Town of Ulysses for decades and

WHEREAS, the Town has deeply appreciated his specific contributions to and through the Youth Commission since 1998 including, but not limited to:

Honorably serving as the Youth Commissioner since 2007 while commemorating the noble role with a Scroll and a hand-forged Commissioner’s belt

Reliably arranging for Rotary Chicken Barbeques to raise funds for the Big Friend/Little Friend program and for the procurement and assigned donning of the official Chicken Suit by volunteers promoting the Chicken BBQ
Generously teaching young people the wonder, beauty, hard work, and artistry that forges molten metal into beautiful and useful objects

Happily volunteering with young people to project community movies at the Farmers Market while attired in his distinctive colorful outfits

Joyfully asking local vendors, friends, and colleagues to contribute time and money on behalf of the young people of our community

Enthusiastically supporting the programs serving children and youth while gently challenging us all to do more and do better and

WHEREAS, Durand is a beloved community character who is as humble as he is outrageous; and

WHEREAS, Durand exemplifies service as a way to cultivate something less tangible: the practice of citizenship. We are a nation that talks a great deal about who should be a citizen. There is less emphasis on how to be a citizen. And that is often learned in the company of others who share a public goal. Bonds of common purpose become ties of civic friendship, reaching across political divides. In a time of bitterness, choosing to serve others offers a kind of healing grace. Durand lives these ideals in a manner that amplifies their influence. Cynicism melts around him, as if he were a bonfire in the snow.ⁱ

NOW THEREFORE BE IT

RESOLVED, upon recommendation of the Ulysses Trumansburg Youth Commission, that the Ulysses Town Board expresses its deep appreciation to Durand Van Doren for twenty years of dedicated volunteer service to the children, youth, and families of the Town of Ulysses and; further

RESOLVED, that May 29, 2019 be proclaimed “Durand Day” throughout the Town of Ulysses.

WHEREAS, 6 NYCRR Part 617 of the State Environmental Quality Review Act (SEQRA) requires that a Lead Agency be established for conducting environmental review of projects in accordance with local and state environmental law; and

WHEREAS, State Law specifies that for actions governed by local environmental review, the Lead Agency shall be that local agency which has primary responsibility for approving and carrying out the action; and

WHEREAS, the Town Board is the local agency with primary responsibility for approving the action; and

WHEREAS, the Town Board has compared the proposed action with the criteria for determining significance in SEQRA 6 NYCRR 617.7;

Department

WHEREAS the Highway Department is responsible for taking reasonable steps to keep Town and County roads clear of ice and snow during the winter months and the rights-of-ways free of tall vegetation during the rest of the year, and

WHEREAS the NYS Attorney General has ruled that mailboxes installed in a public right-of-way are not subject to repair by the municipality in which they reside, and

WHEREAS many Town residents have installed their mailboxes within the road right-of-way, and

WHEREAS while Highway Department Personnel make every attempt to avoid damage to mailboxes that are placed in a road right-of-way, sometimes damage to these mailboxes that are too near the road does occur, and

THEREFORE, BE IT

RESOLVED that the following is the Town of Ulysses policy for mailbox replacement:

Mailboxes should be installed outside of the road right-of-way, but may be installed in the road right-of-way as long as the post is no closer than 3 feet from the edge of the pavement.

If an installed mailbox, or its post, in the right-of-way is damaged by the Town of Ulysses during regular maintenance of the roads, the Town of Ulysses Highway Department will make repairs as follows:

The Town will replace the mailbox and/or post if, after inspection by the highway department, the damage was determined to be caused by the Town of Ulysses, not by other causes such as rotted wood or rusted metal or another preexisting defect.

If damaged, the post will be replaced with a 4" pressure treated post.

If damaged, the mailbox will be replaced with a standard metal mailbox.

The mailbox and post replacement will be completed as soon as possible, but in no case longer than within 6 months of the damage.

WHEREAS, the Town Board of the Town of Ulysses (hereafter “Town Board”) finds it necessary to repeal in its entirety the current Ulysses Zoning Law adopted by Local Law Number 3 of 2013 and amended from time, to time, and codified as Chapter 212 of the Laws of the Town of Ulysses and its place to adopt a new Zoning Law; and

WHEREAS, The Town Board has determined that the action is a Type I action under 6 NYCRR Part 617 of the State Environmental Quality Review Act (SEQRA), and on October 22, 2019 declared itself Lead Agency for the purpose of conducting an uncoordinated environmental review in connection with approval by the Town; and

WHEREAS, The Town of Ulysses Planning Board and Zoning Update Steering Committee reviewed the draft local law at the request of the Town Board; and

WHEREAS, the Town Board is the only agency charged with taking action in connection with the adoption of this Local Law, which action is purely legislative in nature; and

WHEREAS, The Town Board of the Town of Ulysses, acting as the Lead agency in its uncoordinated environmental review in accordance with Article 8 of SEQRA, thoroughly reviewed the Environmental Assessment Form (“EAF”), Parts I and 2, and the Impact Analysis of the Proposed Zoning Amendments, including the findings noted therein (which findings are incorporated herein as if set forth at length-see appendix), and any and all other documents prepared and submitted with respect to this proposed action and its environmental review, and thoroughly analyzed the potential relevant areas of environmental concern to determine if the proposed action may have a significant adverse impact on the environment, including the criteria identified in 6 NYCRR §617.7(c), and (iii) completed the EAF, Part 3; and

WHEREAS, the Town Board has compared the proposed action with the criteria for determining significance in SEQRA 6 NYCRR 617.7;

NOW THEREFORE, BE IT RESOLVED,

that the Town Board of the Town of Ulysses, based upon its thorough review of the EAF, Parts 1 and 2, and the Impact Analysis of the Proposed Zoning Amendments, including the findings noted therein (which findings are incorporated herein as if set forth at length), and any and all other documents prepared and submitted with respect to this proposed action, and in comparison with the Criteria for Determining Significance found at 6 NYCRR Part 617.7, hereby makes a negative declaration of environmental significance (“Negative Declaration”) in accordance with SEQR for the above referenced proposed zoning amendments and that the preparation of a Draft Environmental Impact Statement is not required; and

BE IT FURTHER RESOLVED,

that this determination is based on the following facts and conclusions:

1. Adoption of the Local Law will not result in any direct action or physical change to the environment.
2. Any changes to the environment that may occur from adoption of the Local Law would be indirect and result from future undertakings that would be permitted by the Local Law.
3. Adoption of the Local Law will reduce the density of residential development permitted in the Town and will likely preserve land, natural resources, and the viability of agricultural resources in the Town of Ulysses.

Moved: Ms. Thomas Seconded: Mr. Boggs

Mr. Boggs and Zahler suggested being sure that Mr. Pushlar designs it so that it could be passed along to someone else if necessary. Mr. Boggs suggested making an outline to streamline the process to make sure that the program will provide the data that we are looking for.

Ms. Wright explained that the data fields will be based on the information needed. Ms. Zahler inquired whether NYS provides guidance on this. Ms. Wright said no.

Ms. Thomas explained that this will be a central location for all of the town's many assets lists.

WHEREAS, while many substantive aspects of the prior Zoning Law are not changed by this law, the substantive changes to the Zoning Law that will be effected by this enactment include but are not limited to the following:

This local law increases the minimum required lot size and frontage in areas that were formerly zoned Rural Residence and Moderate Density Residence districts, and reduces the residential and commercial development potential of these areas; and

Reducing the land available for development furthers the aims of preserving and encouraging agriculture on viable lands and preserving both open space and the rural character of the Town; and

WHEREAS on April 9, 2019 the Town Clerk was served with a Protest Petition by purported owners of tracts of land in the Town, protesting the expansion of the Conservation Zone on the land use map, which proposed change has since been eliminated from the Zoning Local Law now being adopted, and therefore the Town of Ulysses has not made any further investigations into the validity and merits or lack thereof of the said Protest Petition which has been rendered moot; and

WHEREAS, the Town Board of the Town of Ulysses, after due deliberation, finds it in the best interest of the Town to adopt said Local Law,

NOW THEREFORE BE IT RESOLVED, the Town Board of the Town of Ulysses hereby adopts said Local Law as Local Law No. 3 of 2019, Repealing in its Entirety The Town of Ulysses Zoning Law As Adopted By Local Law Number 3 of 2013 Amended from Time to Time, and Codified as Chapter 212 of the Laws of the Town of Ulysses, and in its Place Adopting a New Zoning Local Law, a copy of which is attached hereto and made a part hereof, and the Town Clerk be, and hereby is, directed to enter said Local Law in the minutes of this meeting and in the Local Law Book of the Town of Ulysses, and to file said Local Law with the Secretary of State.

Seconded: Ms. Thomas

DISCUSSION:

Ms. Zahler acknowledged Ms. Marino's earlier comments and suggested an amendment to the 15th "whereas" paragraph to clarify that this local law was with drafted "with input" from the ZUISC. All agreed.

Ms. Thomas stated that this has been very long process, with the grant being applied for in 2014. In 2015, consultants were hired and the steering committee appointed. She went on to thank all of the volunteers, staff, committees, attorneys, and Town Clerk who put so much time into this and also the community who has paid close attention.

She continued to add that it is difficult to come to decisions when so many perspectives are involved. She leans on the guiding documents (the Comprehensive Plan, Ag and Farmland Protection Plan, County plans, and American Farmland Trust) and the residents who gave input into those documents, and believes in making decisions based on facts and data.

She reminded the Town Board that their job is to protect the health, safety and wellbeing of all residents. This is difficult because it makes some people unhappy.

Extensive outreach was done for this update (15 outreach events) even though by law, only one public hearing is required.

She added that many compromises have been made, and she is upset about the lack of land preservation, but there are many good updates such as parking regulations, adherence to dark sky standards, expanded uses in the ag district, clarifications to signage, ecotourism, water protection, and clarifications to subdivision standards.

She recommended that this chapter be closed. The law is a living document that can be amended.

She reminded the board of the items on its docket to amend: wind power, multifamily housing, natural resources overlay, abandoned businesses overlay, development districts, and others.

Ms. Zahler thanked all those who provided guidance, and went on to say, "I intend to vote for the resolution tonight because I believe the law as proposed includes many significant and positive changes to support and diversify the types of agriculture allowed in the Town while enacting a number of protections for the health and safety of our residents and water ways.

I recognize that it does not fully respond to all of the requests and recommendations made by regulatory agencies and members of the public and I know that is both disappointing and frustrating to many who have advocated for more changes now.

Zoning is a living document that can be changed. Like any complex piece of legislation, after adoption, there will be more changes needed to make sure it is a code that can work for citizens as well as Town staff and the committees responsible for implementation.

In January I am committed to re-visiting several discreet sections to reconsider:

The square footage limits added in the Lakeshore and Conservation zones

Ag & Markets recommendations that do not adversely affect the health and safety of our residents with the exception of CAFO and Manure Storage Facilities which I do believe protect the health and safety of residents.

Our definitions of setbacks, buffers and vegetative buffers to make sure all definitions are clear and consistently applied to provide guidance to our Planning Board and Board of Zoning Appeals and

How to reconcile the contradictory advice from the County Planning Board and Ag and Markets regarding setbacks and buffers

I think there are a number of discreet changes that can be considered and resolved quickly and there are some that will take a narrow but in-depth look to make sure we're all on the same page.

And because planning is an on-going process, I think we need to begin research on a wind turbine law and I intend to make recommendations during 2020 to outline a process for updating both the data in our Comprehensive Plan and Agriculture and Farmland Protection Plan. We also need to develop our capacity to more systematically track development and land conversion with a data set we can all accept and use to consider future changes.

And since zoning is only one tool available to the Town to protect our water quality, I will also be interested in working with our Town Board, the Highway Department, and committees to: explore other strategies to protect our water quality such as:

implementing best practices in ditching to reduce and cleanse runoff;

exploration of a pilot septic system inspection program to protect against dangerous contamination and a public-private buffer protection initiative

I understand that some would like us to make these changes now, but any changes in one or more parts of the whole code leave the whole code open for endless changes. If we adopt what we have now, we can re-open specific sections to make improvements in a timely way. This has been a long process and I have learned a great deal that I hope to use as we move forward."

Mr. Goldman reiterated that this has been a long & arduous process and thanked all who took the time and energy to share their thoughts, observations, and recommendations.

He will vote for the law because it has many beneficial changes including supporting agriculture and health & safety concerns. He also recognizes that the document does not fulfill some of the requests of folks who worked on it but the votes were not there.

In addition, there are some provisions that need to be looked at as soon as possible, including the square footage restrictions for the lakeshore and conservation zones, clarifying the definitions of setbacks and buffers, and reconciling the contradicting recommendations of Ag & Markets and county planning.

He believes that passing the law now is a better plan than re-opening the whole process.

Mr. Boggs thanked all those who spent so many hours on this law. He also feels conflicted with the document. There are many good updates but some not so. Overall it is a good document. He is anxious to move on and look at changes.

Mr. Hertzler stated that he agrees with these points.
