BUILDING PERMIT APPLICATION – Information
Updated 3/15/19

GENERAL: It is advisable to discuss all requirements with the Code Enforcement Officer and to refer to the Town of Ulysses Zoning Ordinance, which may be obtained at the Town Hall or online at <http://www.ecode360.com/28859962>.

AN APPLICATION FOR A BUILDING PERMIT SHOULD BE MADE WELL IN ADVANCE.

BUILDING PERMITS: For an accessory building, single, or two-family residence, a permit can be issued in a short time, usually two to seven days. Commercial and multi-family permits may take two full working weeks. Application for a new house or commercial project should be accompanied by a complete set of plans that are stamped by a licensed New York State architect or engineer. Accessory buildings, residential additions, and remodeling may not require stamped plans. Accessory buildings under 120 square feet do not require a building permit, but must meet the requirements of the Ulysses Zoning Ordinance. All new structures or additions require a plot plan. Site Plan Review may be required—see page 3 for more information.

IT IS THE RESPONSIBILITY OF THE PROPERTY OWNER/BUILDER TO REQUEST AN INSPECTION AT THE PROPER TIME.

INSPECTION SCHEDULE: Progress of work shall include inspections at a minimum of the following intervals:

1. Site inspection prior to excavation.
2. Footing inspection prior to placing concrete.
3. Framing and plumbing inspection prior to sheet rock.
4. Electrical inspection prior to sheet rock and insulation
5. Final inspection when all construction is complete.

Additional inspections may be made at various stages of construction, if and when deemed necessary.

A CERTIFICATE OF COMPLIANCE SHOULD BE ISSUED BEFORE A BUILDING MAY BE USED OR OCCUPIED.

Work must be completed within one year from permit date, unless an extension is granted by the Code Enforcement Officer

APPLICATIONS CANNOT BE PROCESSED UNLESS COMPLETE

1. No application may be processed until the fee has been received.
2. All land use activities as defined in the Zoning Ordinance within the Town requiring a permit of any kind, including occupancy classification changes as per New York State Building Code, 701.1 shall require site plan review and approval before being undertaken, except the following:
 1. Construction and repairs/alterations of one or two-family dwellings and their ordinary accessory structures, and related land use activities.
 2. Ordinary repair or maintenance or interior alterations to existing structures.
 3. Changes in existing uses that do not affect site appearance, drainage, noise level, parking, traffic, or the nature and character of the enterprise conducted therein.
 4. Farms as defined in the NY Ag. and Markets Law article 25AA, and related farm structures used solely for farming purposes. (Farm structures converted to other commercial uses are subject to site plan review, subject to Ag and Markets Law section 305-a).
 5. The sale of agricultural produce and temporary structures related to sale of agricultural produce. Temporary shall be defined as "in operation for less than six months per calendar year.

In all cases where this local law shall apply, the review and approval of the proposed action is the responsibility of the Planning Board, with the administrative assistance of the Zoning Officer.
